

**1. Review your attributed patients.**

Click the Blue Advantage Resources link on the [myBlue Provider](#) homepage to be routed to the Patrius Health website. Click the link to the Provider Insights tool under the Provider Tools drop-down menu to find your attribution reports.

**2. Schedule Annual Wellness Visits (AWVs) and/or Annual Physical Exams.**

Schedule wellness visits for your attributed patients as well as new patients who contact your office. Review wellness visit guides by clicking Provider Incentives and Coding Corner under the Business Support drop-down menu on the Patrius Health website.

**3. Before visits, use Provider Insights and the Patient Health Snapshot.**

Use the online Patient Health Snapshot to review important patient data prior to each visit, such as gaps in care and potential chronic conditions and diagnoses. Review Provider Insights for other valuable patient information about wellness visits, medication adherence, incentive opportunities and more. Find links to these resources under the Provider Tools drop-down menu on the Patrius Health website.

**4. During the wellness visit, complete the Health Risk 360 (HR360).**

As you discuss and document your patient's health concerns during these visits, complete and submit the HR360 by using the AutoHR360 tool available under the Provider Tools drop-down menu on the Patrius Health website. Incentives are available for completed and submitted HR360s.

**5. Schedule appropriate follow-up visits and health screenings to continue closing care gaps.**

Consider appropriate screenings for your patients based on age, sex and risk guidelines. Continue using Provider Insights and the Patient Health Snapshot to monitor gaps in care. The Provider Incentives webpage gives details about incentives for closing gaps.
