HELP YOUR PATIENTS CONTROL THEIR DRUG COSTS

We are working with Rx Savings Solutions to help your Blue Advantage® patients know if there are lower-cost, clinically effective options available through their plan benefits.

The Process is Easy

- ▶ Rx Savings Solutions analyzes patient plan information to find lower-cost prescription drug options.
- ▶ Patients will receive notifications when there are potential cost-saving options available for their prescriptions.
- ▶ Rx Savings Solutions will coordinate any approved new prescription at the patient's pharmacy.
- ▶ The patient will receive a notification when the prescription is ready for pickup or has been shipped.

Your Help Is Important

Because many of Rx Savings Solutions' recommendations are clinical, providers may be required to approve a switch to a lower-cost prescription.

- ▶ Your office may be contacted by patients or pharmacies about these changes and to write a new prescription.
- ▶ Rx Savings Solutions pharmacy technicians may contact your office via phone or fax on behalf of patients to obtain approval.

Discuss Rx Savings Solutions During Patient Visits

Blue Advantage patients have this program as part of their plan coverage. Once registered, patients can log into Rx Savings Solutions to search for pricing and alternatives during encounters.

- ▶ You can review options to discuss the best available medication at the most affordable price.
- ▶ You can also see a list of all covered medications a patient is taking and their medication adherence report.
- ▶ Blue Advantage members can register at: **myrxss.com/BlueAdvantage**

Reported outcomes from Rx Savings Solutions

1 in 3 members switch to a lower-cost option

46% of members with pharmacy claims engage

\$1,240 annualized savings per fill for maintenance med conversions
